

Expression of Interest to Participate in the Solarize Northern Indiana Initiative

Signing this document accomplishes two purposes:

1. Absolves Solarize Indiana / Northern Indiana volunteers from any legal issues that may arise between you and the installer.
2. Triggers a designated solar installer to contact you. They will then set up a site visit and prepare a site-specific proposal. You pay nothing unless a contract is signed.

Please accept this Expression of Interest for the designated premises identified below to participate in the current round of the Solarize Northern Indiana Initiative, which includes Goshen, South Bend, Elkhart, and Marshall County. I/we represent that:

1. The designated premises are a (circle one) [residence or business] with the following street address:

Street	City	County	Zip Code
--------	------	--------	----------

2. The undersigned individual(s):

- a. own full legal title to the premises or are duly authorized to designate those premises for participation in the Initiative and solar photovoltaic (PV) installation by the person(s) or entity which owns legal title to the premises, namely (please print name)

_____ ; and

- b. are ready, willing and able, financially and otherwise, to execute a contract with the pre-qualified vendor selected by the Initiative in the current round of the pre-qualification process, if offered by the vendor on terms and conditions acceptable to me/us.

In executing this Expression of Interest, I/we further understand and agree that:

1. The Solarize Northern Indiana initiative is a not-for-profit unincorporated association of individuals for the purposes of identifying and assisting through information, communication, coordination and cooperation interested persons and entities in St. Joseph, Elkhart, and Marshall Counties to install solar PV arrays on their premises on terms and conditions acceptable to them;
2. Solarize Northern Indiana volunteers and organizations providing technical assistance such as municipalities and the Michiana Area Council of Governments are not parties to any solar contract and are not liable for any claims, losses, or damages arising out of the contract including any failure to receive net metering, federal tax credits, or other incentives.
3. The pre-selection process has been developed and is being implemented by the Initiative for the sole purpose of facilitating agreements between ready, willing and able buyers and sellers on mutually acceptable terms and conditions for the installation of solar PV arrays on designated premises;
4. The bid terms and conditions offered by the vendor selected by the Initiative for purposes of the bidding process constitute, in the judgment of the Initiative, the best bid overall for all of the participants in the current round of the process collectively, but may not necessarily constitute the best bid which might be available to each of the participants separately by means other than participation in the bidding process;

5. The Initiative and its volunteers are committed to providing information, communication, coordination and cooperation assistance to the best of their ability to those individuals who designate premises to participate in the bidding process but assume no legal, financial or other responsibility for the assistance provided, the execution of contracts between the selected vendor and participating customers in the process, or the resulting installation of or payment for solar PV arrays on the designated premises;

6. The legal, financial and other responsibility for the evaluation of information provided in the pre-selection process, the execution of a contracts between the selected vendor and participating customers, and the resulting installation of and payment for Solar PV arrays on the designated premises rests solely with the undersigned owner(s) of the designated premises and their authorized representative(s);

7. The Initiative is not the authorized representative of the undersigned owner(s), their authorized representative(s), or any of the vendors participating in the bidding process; and

8. I/we waive any claim of any liability on the part of the Initiative or its volunteers related to selection, the execution of a contract between the selected vendor and participating customer(s), or the resulting installation of and payment for a solar PV array on the designated premises by the selected vendor and participating customer(s).

Executed this _____ day of _____, 2019, in my status as (circle one) [owner, co-owner or owner representative] of the designated premises.
